

## - Areas of Focus -

### Cooperation

- Maintenance will now be the first option for:
  - Ethernet drops
  - Lab wiring
  - Projector & board mounting
  - Wireless access point installation
- Technology Plans will help us coordinate purchasing and ensure all schools have the best program and equipment options though:
  - Bulk purchasing
  - Price checking
  - Best practices
- Communication will improve between Educational Technology and other schools and departments via:
  - School & department visits
  - Technology plans (which are accessible to all schools)
  - iDirector blog
  - Media Center Specialists
  - E-mail addresses for all employees

### Education

- Technology staff training will increase core competencies.
- A well-stocked technology library will be available for study.
- Live training will take place every month.
- We are members of Microsoft's TechNet.
- Regular training sessions at Brookhaven for non-instructional staff will ensure that administrative employees are well-versed in our technology.

- Better integration with the Instructional Technology team will ensure continuing professional development for faculty.
- Current pilot programs:
  - Maintenance-installed wireless: Old District Office & Material Center
  - Maintenance-installed lab: Jackson Middle
  - Maintenance-installed Ethernet drops: Busbee-Corbett Elementary/Middle
  - Lab monitoring software: Leavelle-McCampbell Middle
  - Teacher BYOD: Aiken Elementary
  - Student BYOD: North Augusta High
  - One to One with AirWatch: PKMS, WGHS, & NAES
  - Wireless desktops: Kennedy middle
  - Dell Venue 11 Pro: multiple schools & departments
  - Wireless cafeteria: not yet determined
  - Professional e-mail (with Microsoft): Adult Education
  - Destiny accounts for students: South Aiken High

## Infrastructure

- Migration status
- Heavy wireless status
- Partnering with Microsoft to upgrade us to the cutting-edge in server technology
