

BOARD AGENDA ITEM

MAY 10, 2011

SUBJECT:

Mid-Year District Textbook Adoptions for use in 2011-2012 (contingent upon availability of funding)

BACKGROUND INFORMATION:

The District annually examines and evaluates textbooks adopted by the State for use in classrooms and recommends to the School Board those chosen by the teacher committees. Upon approval by the School Board, schools may proceed to order those specific textbooks from the State Book Depository

ADMINISTRATIVE CONSIDERATION:

Upon receipt of the State adopted textbook list, publishers provided each school sample copies for teachers to examine and evaluate in light of the State Curriculum Standards. Teacher committees convened and reached consensus on their recommendations to the Associate Superintendent for Instruction and Accountability. In reaching their decision, the committees considered the match between the textbook and the standards. Their recommendations reflect the best match between State Standards, Common Core, the content of the book, and the book's appropriateness for the student population.

RECOMMENDATION:

Adopt the mid-year textbook recommendations of the teacher committees as submitted to the Associate Superintendent for Instruction and Accountability.

ATTACHMENT:

List of textbook recommendations
