

BOARD AGENDA ITEM

MAY 11, 2020

SUBJECT:

Live-streaming services, on-site equipment, technical support, and dedicated web pages for all Class of 2021 high school graduations through Interactive Display Solutions, Inc.

BACKGROUND INFORMATION:

Aiken County Public Schools has live streamed our high school graduations the last two school years. Earlier this year our plan was not to livestream if the graduations, which are again being held on campus in school stadiums, would be able to seat guests at full capacity. We now know this will not yet be possible, solidifying the need for live-streaming of our Class of 2021 high school graduations.

RECOMMENDATION:

We recommend the live-streaming of our Class of 2021 high school graduations once again be provided by Interactive Display Solutions, Inc. Interactive Display Solutions, Inc provided our live-streamed graduations for the Class of 2020, meaning its staff and sub-contractors already familiar with the unique logistical needs to be able to provide a high-quality production for our graduates, their families, and our community, at each of our high school stadiums.
