

**BOARD AGENDA ITEM**

**NOVEMBER 8, 2011**

**SUBJECT:**

No Child Left Behind Supplemental Educational Services (SES)

**BACKGROUND INFORMATION:**

According to No Child Left Behind (NCLB), 20% of the district's Title I, Part A allocation must be used to provide school choice and supplemental educational services (SES), or after school tutoring, to students who qualify for free or reduced meals in Title I schools designated as being in Continuing School Improvement, Corrective Action, or Restructuring. Students enrolled in SES receive tutoring based on a per pupil amount, which is allocated by formula by the State Department of Education. Aiken County's per pupil amount is \$1,377.39. The State Department of Education provides the school district with a list of approved providers that must be used when offering the tutoring services. These providers issue an hourly rate for tutoring, up to a \$60.00 maximum. As of October 18, 2011, Aiken County has 51 companies, providing services to approximately 500 children for the 2011-2012 school year.

**ADMINISTRATIVE CONSIDERATION:**

The Title I budget, which included the required set-aside for SES, was approved by the Aiken County School Board on June 7, 2011. Contracts for each provider have been reviewed and signed, and Office of Federal Programs personnel monitor services from each provider. The board's action on this item would authorize payments to be made to vendors as invoices are submitted.

**RECOMMENDATION:**

Approve the distribution of Title I funds to the supplemental educational service providers listed, up to the \$1,377.39 maximum allotted per child served in each program.
