

BOARD AGENDA ITEM

March 25, 2025

SUBJECT:

Textbook Adoptions for 2025-2026

BACKGROUND INFORMATION:

The District examines and evaluates textbooks adopted by the State for use in the classroom and recommends to the School Board those selected by teacher committees for our district. Upon approval by the School Board and funding by the State, schools may proceed to order those textbooks from the State Textbook Depository.

ADMINISTRATIVE CONSIDERATION:

Upon receipt of the State adopted textbook list, publishers provided schools with sample copies in the areas up for adoption to review and evaluate. Each school nominated one classroom teacher to represent their school on the textbook adoption committee. Middle and elementary school committee members attended the textbook caravan in February 2025, during which publishers presented their programs. Vendor presentations from high school publishers were held privately for each high school textbook adoption committee. After receiving additional input from their colleagues at their respective schools and reviewing the textbooks' alignment with state standards using a common evaluation worksheet, the school representatives met to reach a consensus on the best match between the textbooks and the needs of our students.

RECOMMENDATIONS:

Adopt the textbook recommendations of the teacher committees.
