

BOARD AGENDA ITEM

May 13, 2014

SUBJECT:

Upgrade of the existing electrical systems at Byrd Learning Center (BLC)

BACKGROUND INFORMATION:

Bids were received for the Upgrading of the existing electrical systems at Byrd Learning Center (BLC) on April 24, 2014 at 2:00 p.m. and publicly opened. There was 1 bidder with the bid being submitted by G&G Electrical Services in the amount of \$221,600.00. The project includes replacement of the electrical distribution equipment, receptacles and lighting branch circuits as well as addition of automatic lighting controls and the addition of emergency lighting ballasts to some select fixtures. It was intended to be done last year but due to time constraints it was not possible. The Code Upgrades account has sufficient dollars to accomplish this project.

ADMINISTRATIVE CONSIDERATION:

The administration has reviewed the bids and determined that G&G Electrical Services is the most responsible and responsive bidder for \$221,600.00 to replace the existing electrical systems equipment, receptacles and lighting branch circuits as well as the addition of automatic lighting controls and the addition of emergency lighting ballasts to some select fixtures.

RECOMMENDATION:

Authorize the administration to accept the low bid of \$221,600.00 and enter into a contract with G&G Electrical Service for replacement of the existing electrical systems at Byrd Learning Center (BLC).
