INTRODUCTORY MATTERS

- I. ***Philosophy:*** The Aiken County Board of Education believes that citizens desire the best possible education for their children. A positive learning environment is safe, drug free, and without disruption. Good student conduct is essential to the achievement of the school's goals and objectives. This Code of Student Conduct for High School Grades establishes guidelines for students, parents, teachers, and administrators to maintain an appropriate school environment. The provisions in this Code of Student Conduct provide for firm but fair administration of disciplinary measures with an appropriate range of discretion for the application of consequences for behavioral needs, based upon individual assessments of every case, and in compliance with the philosophy set forth below.

Disciplinary action is best resolved among teacher, student, and parent in a calm, reasonable manner. However, serious violations of the Code must be handled quickly and effectively by the Administration. The objective of disciplinary action is to encourage good choices and acceptable behavior by the students with every reasonable effort being made to keep students within the school's influence, to rehabilitate and re-direct inappropriate behaviors and to offer effective strategies for changing such behaviors and opportunities to do so except in very serious circumstances. To insure the welfare of the greatest number of students can, in certain circumstances, and in accordance with state law, result in the dismissal of students who consistently fail to observe the required standards, or become involved in criminal or other egregious misconduct. Although this Code of Student Conduct provides for an initial recommendation of expulsion for certain Level 3 offenses listed in this Code, the Academic Officer, Executive Director and the Tribunal or Hearing Officer, as well as the Board, reserves discretion to consider the merits of each case presented – in particular with regard to extenuating, mitigating, or aggravating circumstances. Whenever alternatives to expulsion are under consideration, such matters including (but not limited to) prior conduct [disciplinary record], academic achievement, citizenship, and contributions to the regular and extra-curricular school programs by the student may be considered. Deferential treatment for the purpose of maintaining athletic or extra-curricular eligibility is not allowed. This District's disciplinary code is not considered, nor is it to be interpreted as, a *zero tolerance* policy, even though certain misconduct may be serious or disruptive enough to warrant dismissal from school.

- II. ***Legal Authority for Discipline in South Carolina:*** The regulation of student conduct and discipline in South Carolina schools is derived from the Code of Laws of South Carolina, 1976, as amended; from Regulations of the South Carolina State Department of Education; and by specific precedent and opinion. (For a more detailed reference to legal authority see Appendix (A).)
- III. ***General provisions: Notice of Regulations and Distribution:*** Copies of this Code of Student Conduct for High School Grades Levels are distributed at the beginning of the school year and to those entering after the beginning of the school year. Signed acknowledgments are required. This Code of Student Conduct is a part of District Policy and is updated yearly pursuant to Policy JICDA. Policies may also be found online at the Aiken County Public Schools website (www.aiken.k12.sc.us).

IV. DISCIPLINARY PROCEDURES – PROCESS FOR HEARING AND APPEALS

- A. ***Minor Infractions:*** Typical minor disciplinary actions consist of restriction of privileges, work assignments (such as picking up paper, washing desk tops, sweeping floors, etc.), detention, in-school suspension, and out-of-school suspension. It is recognized, however, that situations serious enough to warrant immediate suspension may arise. In such cases, a warning conference prior to suspension is not required. **See Consequences in the Matrix for Level 1**
- B. ***Serious Infractions: Typically starting at Level 2 offenses:*** For any of the offenses listed in Level 2, a student may be suspended (and/or recommended for expulsion in limited instances) by the

principal. In making such recommendation the principal will follow the matrix of consequences and will include information as to any extenuating, mitigating, or aggravating circumstances. For ~~such~~ recommendations of suspension (or expulsion, if applicable), and for any offenses in which a student is to be suspended from a class or a school, the student's parent or guardian will be notified in writing and informed of the right to discuss the principal's action. This written notice will include the reason for the suspension (and/or recommendation for expulsion) and will set a time and place when the administrator will be available for a conference with the parent or guardian. Such conference will be set within three (3) school days of the date of the disciplinary action. After this conference, and prior to (or as part of) any due process hearing, the student – with written parental permission – may be offered voluntary participation in collaborative agency programs, or other interventions in lieu of, or in conjunction with, the continuation of discipline. **See Consequences in the Matrix for Level II**

- C. **Major Infractions:** For any of the offenses listed in **Level 3**, a student may be suspended and recommended for expulsion by the principal. In making such recommendation the principal will include information as to any extenuating, mitigating, or aggravating circumstances. For expulsion offenses, and for any offenses in which a student is to be suspended from a class or a school, the student's parent or guardian will be notified in writing and informed of the right to discuss the principal's action. This written notice will include the reason for the suspension and/or recommendation for expulsion and will set a time and place when the administrator will be available for a conference with the parent or guardian. Such conference will be set within three (3) school days of the date of the disciplinary action. After this conference and prior to (or as part of) any due process hearing, the student – with written parental permission – may be offered voluntary participation in collaborative agency programs, or other interventions in lieu of, or in conjunction with, the continuation of discipline. **See Consequences in the Matrix for Level III**

Corporal punishment is not permitted by the District.

Staff members will exercise alternative means of discipline that reflect respect for the dignity of the individual student. However, incidental contact with a student or the use of reasonable force to restrain a student who is fighting with another student, or who is threatening a student or staff member, committing assault against another person, or otherwise displaying aggressive or excessive misbehavior, does not constitute corporal punishment.

1) **Procedures, Hearings, and Appeals of Suspensions**

A parents or guardian has a right to one level of appeal above the administrator giving suspension the_The student is entitled to remain in school while the appeal of a suspension recommendation is pending, unless the exclusion of the student for his safety or the safety of_others, is indicated. FOR VIOLATIONS IN WHICH THE PRINCIPAL'S RECOMMENDATION IS SUSPENSION, THE DECISION OF THE PRINCIPAL AS SET FORTH ABOVE, IS FINAL. FOR VIOLATIONS IN WHICH THE RECOMMENDATION IS EXPULSION AND THE TRIBUNAL OR HEARING OFFICER PROVIDES PUNISHMENT IN LIEU OF EXPULSION, THE DECISION OF THE TRIBUNAL OR HEARING OFFICER_IS FINAL.

If suspension is necessary, it should be in accordance with the matrix. (If so warranted, in the judgment of the principal, longer suspensions for first offenses of a serious nature may be utilized.) At the discretion of the principal, a student who has been suspended may not be allowed to return to school until a conference has occurred between the principal and parent, or guardian. Following a suspension, other forms of punishment may be in order before another suspension is administered.

A student cannot attend any school-related function within or outside the School District while under suspension. Alternative sanctions may be used by the school administrator such as in-school suspension or Saturday school instead of out-of-school suspension, **if such programs are available**. A parent or guardian may be required to come to school and take the student home. In addition to the discipline procedures listed within this code, schools are permitted to impose other restrictions which may impact athletic and/or other extracurricular activities as described in the written school procedures.

2) Procedures, Hearings, and Appeals of Expulsions

A recommendation for expulsion will be confirmed by the school level Executive Director. The Executive Director may require an additional conference with the parent or guardian before confirming a recommendation for expulsion.

A parent or guardian will be advised of the date and time for a hearing before the Tribunal or Hearing Officer or the Aiken County Board of Education, as provided below. **The student and his/her parent or guardian will attend the appeal hearing before the Tribunal or Hearing Officer.** Such initial hearing shall take place within fifteen (15) days of the date of the written notification of expulsion, unless waived in writing by the parent or student, either completely or for a later date. (If the parent or guardian refuses to appeal or fails to attend the hearing designated, the expulsion recommendation will be forwarded to the Board of Education for ratification. In any appeal, the Tribunal or Hearing Officer, after reviewing the student's previous record, and in light of extenuating circumstances, may consider punishment other than expulsion and impose various conditions. **In such instances the Tribunal's or Hearing Officer's decision will be final.**

Written notice of the Tribunal's or Hearing Officer's decision shall be given the parent or guardian. All requests for appeal of an expulsion recommendation that has been upheld by the Tribunal or Hearing Officer must be in writing. If no written request for appeal to the Board is made within ten (10) days of the date of the Tribunal's or Hearing Officer's written decision notice to the parent or guardian, the action of the Tribunal or Hearing Officer upholding the expulsion will be presented to the Board for ratification. In any expulsion case which is appealed by, or on behalf of, the student to the Board of Education and in which the recommendation for expulsion is upheld by the Board of Education, the parent or guardian has the right to appeal to the courts.

The School Board supplies legal services to school employees who may be required to appear in court as a result of carrying out the policies of the School Board. The Board is not responsible for a Parent's legal expenses.

The hearing will be conducted in an informal manner, but full opportunity will be afforded to the student to be heard and to present such relevant matters as he/she may wish. Such hearings will be private and not open to the public, unless a public hearing is requested in writing by the parent or guardian. At any hearing, the parents or legal guardian have the right to legal counsel and to all other regular rights, including the right to question all witnesses who appear. However, the cost of such counsel will not be paid by the School District. The parent or guardian shall have the right to appeal a decision of the Tribunal or Hearing Officer upholding an expulsion to the Board of Education. recommendation was expulsion. **The student and his/her parent or guardian will attend the appeal hearing before the Board.** A hearing shall take place at the next Board meeting immediately following receipt of written request to appeal (but in no event more than fifteen (15) days

after the decision being appealed) at a time and place designated by the Board, and a decision shall be rendered within ten (10) days of the hearing. The student may be suspended from school and all school activities while the expulsion procedures are pending.

An expelled student is not allowed upon any school property (except for appeal procedures, or by prior permission) and may not attend any school related function or athletic event involving Aiken School District students, whether occurring within the School District or at another location.

Any student recommended for expulsion who, as a result of an appeal of such recommendation to the Tribunal or Hearing Officer or Board of Education, is allowed to return to school on probation will receive a decision letter in which the consequences of the status of *probation* or *strict probation* are set forth. In either case such student will be considered to have violated that probationary status on the occasion of a subsequent suspension or expulsion level offense, or a less than suspension offense if the same violates the terms of the imposed strict probation. Such violation of probation will result in immediate suspension from school and reinstatement of the expulsion recommendation. An appeal of this action may be made to the Tribunal or Hearing Officer or Board of Education, whichever imposed the probation.

3) Petition for Readmission for School Year Following Expulsion:

Any student expelled for the remainder of a school year, except for one who has been permanently expelled, has to petition for readmission for the following school year. The parent or legal guardian of any student seeking to be re-enrolled will schedule a conference with the Hearing Officer for readmission (assuming the readmission itself is not an issue). The Hearing Officer may, where he/she deems it necessary impose certain conditions or restrictions to the student applying for readmission.

Jurisdiction of Student Conduct:

The provisions of this Code of Student Conduct apply to all school sponsored activities and are likewise fully applicable when students are off campus on field trips; engaged in, or attending, athletic events and other school related activities; while at, or in the immediate vicinity of, school bus stops and while utilizing school bus transportation for any purpose; and otherwise coming to or going home from school.

D. School Searches and Retention of Control Over School Property: South Carolina statutes provide that any person entering any school premises in this state is deemed to have consented to a reasonable search of his person or effects. (Strip searches by school administrators or officials are prohibited.)

In order to help provide for the safety of the school population and to prevent weapons, illegal substances, and other contraband items from being brought upon school premises, notice is given that occasional school-wide or random, large scale searches of student areas may be conducted. Such searches may include the use of sniffer dogs around lockers or other school spaces utilized by students including automobiles parked on school premises, or on public right of ways immediately adjacent to school premises and ordinarily utilized for student parking when the school is in session. State law authorizes personal belongings such as purses, bookbags, wallets, and satchels reasonably to be searched by administrators or their designees. The Administration may use electronic detection devices as an aid for finding possible weapons on school premises and/or preventing the same from being brought. The administration, or its designee, may conduct a review

of data or images displayed or stored in any cell phone or other personal electronic device being used by a student in violation of this code or the cell phone policy JICJ. Any searches conducted pursuant to these provisions will be implemented in a non-discriminatory manner. There is no expectation of privacy regarding live or recorded video images recorded by equipment in the commons areas of any school building or grounds or upon any school bus.

Any lockers, storage or similar spaces on school premises assigned to, or regularly used by, individual students remain the property of the School District in all respects. Such use by, or availability to, students is a privilege and the schools reserve a right of control and access to such spaces. School commons areas, including but not limited to hallways, cafeterias, and outside grounds and traffic or parking areas are subject to video or photographic surveillance for security purposes.

E. Confiscation of Weapons and/or Other Illegal, Dangerous, or Unauthorized Items or Devices:

Any weapon or contraband item found on a student, or on property under the possession or control of the student while on school grounds or at any school sponsored event, will be confiscated immediately from the student by the appropriate administrator, school personnel, or adult in charge. Thereafter, if required by law to be turned over to law enforcement authorities, such weapon or contraband item will be surrendered to law enforcement officials. Some weapons (including all handguns) are mandated by law to be forfeited upon such confiscation and surrendered to law enforcement personnel. Any item reasonably considered a weapon or dangerous instrumentality by school administration and confiscated, if not required by law to be surrendered to law enforcement personnel, may be held in the discretion of the school administration (with the exception of cell phones) until the end of the then existing school term and turned over to the student's parent after written request. Other unauthorized devices found in use by a student during instructional time or otherwise displayed or utilized in a distracting manner may be taken up by a teacher or administrator to be turned over to the student's parent or legal guardian. (The schools cannot be responsible for lost or stolen personal items brought to school by students.)

F. Possession/Use of Paging Devices and Cell Phones: South Carolina law and School District policy define a *paging device* as “a telecommunications device that emits an audible signal, vibrates, displays a message, or otherwise summons or delivers a communication to the possessor”. This definition includes cell phones. The law provides that each school district shall have a policy which addresses possession of such devices by any student.

The policy of this District, as set forth in Policy JICJ and/or amended in this Code may be summarized as follows:

- 1) Cell phones, pagers, or other communication devices may not be used or activated during the school day. [Note: Students attending a school piloting a BYOD project are waived from certain prohibitions otherwise set forth in policy JICJ and this Code, but use as a phone or unauthorized camera remains strictly prohibited, as for all students.] Devices described in this policy shall not be activated, used, or displayed by students while in school buildings or on school grounds during “school day hours” and while attending school-day activities, whether on or off school property
- 2) Cell phones and pagers are permitted at athletic contests or other events occurring during non-school hours.

- 3) Other personal electronic devices which have wireless or cellular interface capability to the internet and/or which have the capability of capturing, storing, or transferring text, numeric, or visual images (including digital or conventional cameras) are subject to all rules relating to cell phones unless otherwise authorized by prior permission of a teacher or administrator.

A student needing a cell phone, pager or any device may be exempted from the prohibitions of the policy for documented medical needs, physical or academic accommodations, or other legitimate reasons as approved in writing by the school.

Violations during the instructional day are described as: Any intentional manipulation or **use of the device** by a student. Any violations involving other violations of the Code of Conduct may result in more severe consequences. **[Note: Utilization of such device in a restroom, even on first offense, will be subject to loss of privileges for the remainder of the year and at least a three-day suspension.]**

Phones confiscated for violations of policy must be made available to parent(s) as soon as the device is no longer required as evidence.

Discipline consequences are as follow:

Activation and/or any use during school hours (without permission) is still a violation of the Code of Conduct.

Any unauthorized activation or use gives staff a reasonable basis to take the phone for the balance of the day (at a minimum) and to view the last activity including texts or browser visits to see if there has been a related disciplinary violation [such as cheating; taking pictures; inappropriate website visits; etc.] with reference being made to Item III (D) of this Code.

Unauthorized activation with no related infraction would result in staff confiscating the phone for the remainder of the day and a warning being issued.

Second unauthorized activation with no related infraction would result in loss of privilege for ten school days and further warning.

Third unauthorized activation with no related infraction would result in loss of privilege for twenty school days, or remainder of the year, whichever is shorter and at least one day of suspension (ISS or OSS). Unauthorized use with related disciplinary infraction would result in three days minimum OSS up to an expulsion recommendation, depending on the nature of the related violation.

- G. Non-Students on Grounds: The principal is empowered to take appropriate action against non-students who enter any school building or grounds without permission. Such action includes the right to request assistance from law enforcement authorities to remove such persons and if necessary to swear out arrest warrants (in consultation with the appropriate school level Executive Director Academic Officer).
- H. Referral to School District Approved Counseling Programs: At the discretion of the Tribunal or the Board of Education, a student may be referred to an approved counseling program in addition to, or as an alternative to, other disciplinary action. The student must complete such program successfully and provide documentation to the principal. Such referrals impose no funding liability upon the School District.

- V. ***Student Conduct Requirements:*** While under school jurisdiction, students are required to conduct themselves at all times in a manner that is in the best interest of the school and community. It is expected that students will:
- A. Conform to reasonable standards of speech, conduct, and dress and refrain from vulgar, obscene, and disrespectful conduct directed toward staff and other students.
 - B. Refrain from violating or impairing the rights of others, including physical abuse,—sexual harassment, hazing, and conduct considered “bullying” as defined in state law and prohibited under School District policy.
 - C. Avoid conduct that deprives other students of an orderly atmosphere for learning.
 - D. Refrain from knowingly possessing, handling, or transmitting any object that can reasonably be considered a weapon.
 - E. Refrain from the use, transmission, or possession of alcoholic beverages, hallucinogens, narcotics, chemical inhalant substances, or drugs not prescribed by an appropriately licensed physician or medical professional; nor be on school premises when school is in session or at any school related activity or event after having used or consumed or utilizing any quantity of the same.
 - F. Refrain from the use, transmission, or possession of tobacco products, including matches, lighters, or any incendiary device, or electronic type smoking devices on school premises or at any school related activity or event.
 - G. Refrain from malicious and willful damage, destruction, or theft of school or private property.
 - H. Remain at school, or at other officially designated places, upon coming under the school's jurisdiction, and follow daily schedules as prescribed by school officials.
 - I. Comply with the directions of principals, teachers, or other authorized school personnel during any period of time when under the authority of school personnel.
 - J. Refrain from any inappropriate physical display of affection while at school, on school property, or at any school related activity or event. Serious violations, including fondling, indecent exposure, and other sexual activity will result in disciplinary action.
 - K. Attend school regularly and be on time for all classes and scheduled activities and comply with all state attendance requirements.

Conduct by a student in any manner which interferes with classwork or involves substantial disorder, or invasion of the rights of others, is a basis for disciplinary action including suspension or expulsion of the student. In addition, certain other violations of the Code may result in suspension or expulsion.

ADMINISTRATIVE ACTION (INVESTIGATION) IN THE DISCIPLINE PROCESS – BASIC DUE PROCESS

- VI. ***Administrative Actions:*** Before disciplining a student, the principal, or the principal’s designated administrator, will conduct an investigation, gather the facts, and develop a written report where necessary. The student will be advised of the alleged violation of the Code and the proposed punishment such as restriction of privileges; work assignment (e.g. such picking up paper, washing desk tops, or sweeping

floors); detention; in-school suspension; out-of-school suspension; expulsion, and/or referral to alternative programs, other agencies, and/or Family Court. If the student admits the charges, no further investigation is required. If the student denies the charges, the administrator will explain the evidence known to school authorities and permit the student a reasonable opportunity to state his/her version of the facts. The administrator may conduct further investigation if necessary. The administrator need not call witnesses, either to sustain or oppose the charges, although he/she may do so. Where the conduct of the student requires that he/she be suspended, written notice to the student and to the parent or other person *in loco parentis* must be given. This written notice will include the reason for the suspension and/or recommendation for expulsion and will set a time and place when the administrator will be available for a conference with the parent or guardian. Referrals for consideration of voluntary participation in certain agencies and/or other interventions in lieu of, or in conjunction with, discipline may be recommended. Parents will be notified at least one day in advance if a student is assigned to detention hall. If a student has been injured, parents or guardians of the student should be notified. **Parents or guardians will be notified expeditiously concerning the arrest or incarceration of a student.**

- All students are asked to refrain from hair styles/colors that are potentially distracting in a school setting (any action related to hair styles/colors is at the discretion of administration).

NOTE: The administration will make the final judgment on the appropriateness of clothing and/or appearance and reserves the right to prohibit students from wearing any articles of clothing or other items which lead to, or may foreseeably result in, the disruption of or interference with the school environment. In the event the administration determines a student's dress is inappropriate for school in accordance with this policy, the administration will require the student to change and will inform the student not to wear the garment to school again. Repeated violations of the Dress Code will be addressed as outlined in the District's Behavior Code.

CATEGORIES OF OFFENSES AND DISCIPLINARY PROCEDURES

HIGH SCHOOL BEHAVIOR CONSEQUENCES

Though not specifically mentioned in the list of behaviors, students may be suspended or recommended for expulsion for first-time offenses or any act which is detrimental to the good order, best interest, and physical safety of the school. Level Two Infraction

Disruptive conduct is defined as those activities engaged in by students which are directed against persons or property, and the consequences of which tend to endanger the health or safety of oneself or others in the school. Some instances of disruptive conduct may overlap certain criminal offenses, justifying both administrative sanctions and court proceedings. Disorderly conduct (Level One) may be reclassified as disruptive conduct (Level Two) if it occurs three or more times. The provisions of this regulation apply not only to within school activities, but also to student conduct on school bus transportation vehicles and other school-sponsored activities.

APPENDIX (B)

Policy IJNDB Use of Technology Resources

Issued 5/12

Purpose: to establish the basic structure for the use of technology resources in the district.

The use of technology to support the curriculum and the instructional process must be selected on the basis of its potential to enhance the direct implementation of district and state academic achievement standards. Technology must not be used to substitute for teaching, except when it is used as a delivery medium such as distance learning, web-based educational approaches, etc.

Internet acceptable use policy (Internet and other electronic media and on-line connections)

Technology is a vital part of education and the curriculum of the district and the district's operations. In an effort to promote learning and expand educational resources for students, the district has made arrangements to provide worldwide electronic on-line connection access to students and staff. While the Internet will be a primary on-line source, this policy and any implementing administrative rule are intended to cover the use of the district's computer-related electronic on-line connections, generally, as well as the district's computer hardware and software. Reference to "Internet" as used herein will be construed as a term of convenience to cover the intended scope of this policy. The district's goal in providing this service is to promote educational excellence by communication, innovation and facilitation in sharing of teaching and learning resources. Access to such "electronic highways" connecting millions of computer users all over the world will allow district students and staff the opportunity to communicate with others on a global level and access educational materials worldwide. It will also enhance professional development for staff.

The internet can provide a vast collection of educational resources for students and employees. It is a global network that makes it impossible to control all available information. Because information appears, disappears and changes constantly, it is not possible to predict or control what students may locate. The school district makes no guarantees as to the accuracy of information received on the internet. Although students will be under teacher supervision while on the network, it is not possible to constantly monitor individual students and what they are accessing on the network. Some students might encounter information that is not of educational value.

Access to the Internet is a privilege, not a right. With this privilege, there also is a responsibility to use the Internet solely for educational purposes and not to access inappropriate materials not suitable for students. To that end, the district administration is directed to develop appropriate guidelines governing the use of district computers to access the Internet.

As part of the implementation of the administration's guidelines, students and staff must be instructed on the appropriate use of the Internet. In addition, parents must sign a permission form to allow students to access the Internet. Students also must sign a form in the Code of Student Conduct acknowledging that they have read and understand the acceptable use policy and administrative rule, that they will comply with this policy and rule, and that they understand the consequences of violating this policy or rule. District staff must sign a similar acknowledgment form [IJNDB-E](#) before they will be allowed to access the Internet. Inappropriate use by any person will not be tolerated.

Adopted 11/12/96; Revised 1/8/02, 5/22/12

Administrative Rule IJNDB-R Use of Technology Resources

Issued 5/12

Purpose and scope

This administrative rule is adopted to implement the district's Internet acceptable use policy. While the rule primarily addresses utilization of the Internet and other electronic on-line connection services, it also applies, where appropriate, to the general use of district-owned computer hardware and software.

Terms and conditions of use

Acceptable use

The purpose of the district's decision to provide Internet access is to allow an expanded opportunity for education, research and professional development by providing access to unique resources and the opportunity for collaborative work. All use of the Internet must be in support of education and research and consistent with the educational and staff development objectives of the district. Use of any organizations' network or computing resources must comply with the rules appropriate for that network. Transmission of any material in violation of any federal or state laws or regulations is prohibited. This includes, but is not limited to, copyrighted material, threatening or obscene material, or material protected by trade secret. Violations will result in appropriate disciplinary action against the staff member or student involved.

Accessing inappropriate sites

Student Internet activities will be monitored by the district to ensure students are not accessing inappropriate sites that have visual depictions that include obscenity, child pornography or are harmful to minors. The school district uses CIPA approved technology protection measures to protect students from inappropriate access in addition to monitoring.

The district will provide reasonable notice of and at least one public hearing or meeting to address and communicate its Internet safety measures.

Reporting

District and school computer technicians who are working with a computer and come across sexually explicit images of children must report this to local law enforcement. The report must include the name and address of the owner or person in possession of the computer.

Online behavior

The district will educate minors about appropriate, safe, and secure online behavior, including interacting with other individuals on social networking websites and in chat rooms and cyberbullying awareness and response. The superintendent or his/her designee will develop a program to educate students on these issues in accordance with Internet Safety Standards and grade bands published on the State Department of Education website.

Off-campus conduct

Students, parents/legal guardians, teachers and staff members should be aware that the district may take disciplinary actions for conduct initiated and/or created off-campus involving the inappropriate use of the Internet or web-based resources if such conduct poses a threat or substantially interferes with or disrupts the work and discipline of the schools, including discipline for student harassment and bullying.

Procedures for use

Employees may access the Internet for educational or work-related purposes at any time that is not disruptive and does not interfere with the performance of other responsibilities by the employee or other staff members.

Students will be allowed to access the Internet only under the supervision of designated staff. No students may access the Internet without permission.

Rules governing use

The following guidelines for acceptable use will be applicable.

- Users are expected to employ appropriate net etiquette; profanity, vulgarity or abusive, inappropriate language is prohibited. Illegal activities are forbidden, including unauthorized access or “hacking” by any users.
- Users are not to reveal their personal address or phone number or that of other individuals, students or colleagues.
- Users are not to use another school's or individual's account without written permission from that individual.
- Vandalism will not be tolerated. Vandalism includes, but is not limited to, malicious damage to hardware, harm or destruction of software or the data of another user, and creating, uploading or downloading computer viruses.
- Users should consider all communications and information accessible via the network to be private property. All quotes, references and sources should be cited.
- Users are not to access inappropriate or restricted information or other information not directly related to the educational or staff use purposes for which access is being provided. Restricted information includes obscene, libelous, indecent, vulgar, profane or lewd materials; advertisements for products or services not permitted to minors by law; insulting, fighting and harassing words; and other materials which may cause a substantial disruption of the academic environment.
- Users should remain on the system only as long as necessary to complete their work so that other individuals will have equal opportunities to access the Internet. Users are not to disrupt, harass or annoy other users.
- The system is not to be utilized for financial or commercial gain or for personal use other than professional activities.

Penalties for improper use

An employee who violates the terms of this administrative rule will be subject to disciplinary action consistent with the nature of the offense, including cancellation of Internet privileges, suspension, or termination if circumstances so warrant. Students who violate the terms of this administrative rule or who otherwise misuse their access to the Internet also will be subject to disciplinary action in accordance with the district's Code of Student Conduct to include suspension or expulsion if circumstances so warrant. Violations of the laws of the United States or the State of South Carolina also may subject the user to criminal prosecution. If a user incurs unauthorized costs, the user, as well as the user's parents (if the user is a student), will be responsible for all such costs.

APPENDIX (C)

Policy JICFAA Harassment, Intimidation or Bullying

Issued 9/11

Purpose: To establish the basic structure for promoting the health and welfare of the district's students by maintaining a safe, positive learning environment for students and teaching environment for staff that is free from harassment, intimidation or bullying.

The board prohibits acts of harassment, intimidation or bullying of a student by another student or students, staff or third parties that interfere with or disrupt a student's ability to learn and the school's responsibility to educate its students in a safe and orderly environment whether in a classroom, on school premises, on a school bus or other school-related vehicle, at an official school bus stop, at a school-sponsored activity or event, whether or not it is held on school premises, or at another program or function where the school is responsible for the student.

For purposes of this policy, harassment, intimidation or bullying is defined as a gesture, electronic communication or a written, verbal, physical or sexual act reasonably perceived to have the effect of either of the following.

- harming a student physically or emotionally or damaging a student's property, or placing a student in reasonable fear of personal harm or property damage
- insulting or demeaning a student or group of students in such a manner as to cause substantial disruption in, or substantial interference with, the orderly operation of the school

Any student who feels he/she has been subjected to harassment, intimidation or bullying is encouraged to file a complaint with the principal or his/her designee in accordance with procedures established by the superintendent. Complaints will be investigated promptly, thoroughly and confidentially. All school employees are required to report alleged violations of this policy to the principal or his/her designee. Reports by students or employees may be made anonymously, but formal disciplinary action must not be taken solely on the basis of an anonymous report.

The district prohibits retaliation or reprisal in any form against a student or employee who has filed a complaint or report of harassment, intimidation or bullying. The district also prohibits any person from falsely accusing another as a means of harassment, intimidation or bullying, and any student or staff member knowingly violating this prohibition will be subject to disciplinary action as described in this policy.

The board expects students to conduct themselves in an orderly, courteous, dignified and respectful manner. Students and employees have a responsibility to know and respect the policies, rules and regulations of the school and district. Any student or employee who is found to have engaged in the prohibited actions as outlined in this policy will be subject to disciplinary action, up to and including expulsion in the case of a student. Individuals may also be referred to law enforcement officials. The district will take all other appropriate measures reasonably calculated to correct or rectify the situation. (Employees engaged in harassment, intimidation or bullying may be disciplined or recommended for termination, as provided elsewhere in district policy, for unprofessional or unlawful conduct.)

Students, parents/legal guardians, teachers and staff members should be aware that the district may take disciplinary actions for conduct initiated and/or created off-campus involving the inappropriate use of the Internet or web-based resources if such conduct poses a threat or substantially interferes with or disrupts the environment, work and/or discipline of the schools, including discipline for student harassment and bullying.

The superintendent will be responsible for ensuring notice of this policy is provided to students, staff, parents/legal guardians, volunteers and members of the community including its applicability to all areas of the school environment as outlined in this policy.

The superintendent will also ensure that an age-appropriate process is established for discussing the district policy with students, as with other aspects of the code of conduct currently utilized during the beginning of each school year.

The superintendent will ensure that information regarding this policy is incorporated into the school district's training program and that volunteers who have frequent contact with students are likewise informed of the policy.

Information concerning this policy, upon adoption, will be included in the district's code of student conduct for the next year and will be circulated to all administrators. Immediate information will be provided to students by building administrators and to parent groups through reasonable communication methods currently utilized by the various schools.

PARENT AND STUDENT ACKNOWLEDGMENT

IMPORTANT NOTICE TO PARENTS AND GUARDIANS:

Maintaining discipline and appropriate student behavior is necessary for the operation of our schools. Invoking disciplinary procedures may at times be stressful and emotional for parents and the students involved. Nevertheless, the Board of Education expects communications and meetings between school personnel and parents to be conducted reasonably, even if there are differences of opinion.

THE BOARD DOES NOT EXPECT STAFF MEMBERS TO BE SUBJECTED TO VERBAL OR PHYSICAL ABUSE. ADULTS WHO ABUSE STAFF MEMBERS CAN EXPECT TO HAVE APPROPRIATE LAW ENFORCEMENT OFFICIALS SUMMONED AND LEGAL RECOURSE PURSUED, IF NECESSARY.

NOTE: *State law makes it criminal conduct in South Carolina to threaten bodily harm or death to a teacher, principal, school staff member, or family member of any of these persons; to disturb schools; or to interfere with the operation of a school bus. State law also mandates that conduct which may constitute a crime be reported to law enforcement. Parents and students need to be advised of the seriousness of any such threatening statements (even when made by very young and immature students), as these will be reported to law enforcement and may result in charges being brought. Threats of violence, harm, or death by students against other students, or against other third parties, are serious violations of this Conduct Code and will lead to strict disciplinary consequences which may include expulsion (and referral to law enforcement where appropriate).*
