

BOARD AGENDA ITEM

January 23, 2018

SUBJECT:

Recommendation to adjust middle school attendance boundaries in Area Three

BACKGROUND:

To provide additional space for growth at Leavelle McCampbell Middle, we recommend adjusting middle school attendance lines between Leavelle McCampbell Middle and Langley Bath Clearwater Middle. This adjustment includes a grandfathering provision for current attendees and would begin with the 2018-19 school year. Attendance areas are succinctly defined in Map Attachment D.

ADMINISTRATIVE CONSIDERATION:

Comprehensive internal and external demographic, population, and utilization studies confirm that Byrd Elementary School and Midland Valley High School are currently over their designed capacity. Those studies further reveal that population growth in those attendance areas will continue in the foreseeable future. While space is currently available at Leavelle McCampbell Middle School, it too will be impacted by the continued growth in its attendance area.

This recommendation will increase utilization at LBC and decrease utilization at Leavelle McCampbell, providing additional space for the anticipated growth. Specifically, students zoned for Warrenville Elementary, Byrd Elementary, and the new Area Three elementary school would be zoned for Leavelle McCampbell Middle. Students zoned for Clearwater Elementary, Jefferson Elementary, and Gloverville Elementary would be zoned for LBC Middle.

RECOMMENDATION:

Approve the recommendation to adjust middle school attendance boundaries in Area Three.
